REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose, in combination with all the limitations, a voltage regulator having a detector terminal connected to a phase terminal and the detector terminal being bent in a U-shape forming a first portion extending from the voltage regulator, a second portion positioned in parallel to the first portion and a U-shaped portion positioned between the first and second portion and the phase terminal being sandwiched between the first and second portion of the detector terminal and a slit window being formed in the detector terminal so that an amount of current, bypassing the phase terminal, flowing through the first portion, U-shaped portion and the second portion in a process of the resistance welding is suppressed by the slit window.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Julio C. Gonzalez whose telephone number is 571-272-2024. The examiner can normally be reached on M-F (8AM-5PM).
